Single-use hygiene solutions

Clothing & Paper

**"Our goal: make you life easier"**

With hygiene control as a focus, Kalissya provides disposable clothing and single-use hygiene paper for industry, the medical sector and local authorities.

Thanks to strong partnerships with producers and factories, Kalissya provides improved product proximity and optimises your logistics and purchasing flows.

Kalissya offers high quality products: raw materials and finished products, providing operators with a combination of comfort and hygienic protection and guaranteeing the reliability of product selection for decision-makers in purchasing, hygiene and safety.

While storing all the standard references, Kalissya also offers the possibility of producing your own-brand and / or tailor-made items according to your needs.

Kalissya centralises different functions for you : manufacturer, importer, warehouse-keeper, logistician, thus managing for you the whole chain of values from A to Z, ensuring total satisfaction for you at the best price.

# Brands & Partners

Kalissya offers hygiene solutions via well-known and recognised brands, ensuring peace-of-mind thanks to sustainable quality and very high-level technical requirements.

LUXURY HYGIENE SOLUTIONS

Bulkysoft brand is part of the Cartiere Carrara group.

Cartiere Carrara is one of the leading producers and converters of paper for wiping in Europe. The company owns 9 factories, all located in Europe.

DPL has been producing gloves for over 40 years. Product quality has enabled DPL to become one of the world leaders in glove manufacturing.

Mutexil, founded in France and a reference in terms of single-use clothing since 1961, is recognised for its quality and hygiene expertise.

Semperguard gloves are part of the Sempermed range, which belongs to the Semperit group. Semperit has been developing, producing and selling specific rubber-based products for industry and the medical sector since 1824.

Since 1950, Showa – a well-known Japanese company – has been innovating and producing protective gloves with very high added-value.

**PRIVATE**

**LABEL**

Kalissya is able to manufacture your own-brand, tailor-made products according to your needs, with very flexible minimum manufacturing quantities.

# Logistics - Ordering

## In brief

Kalissya delivers all over Europe, from a single carton (the smallest possible unit) to full containers, thanks to its transport partners : Dachser and DB Schenker.

In order to deliver in due time, Kalissya stocks more than 1500 m<sup>2</sup> of products. Located in the centre of France, Kalissya's warehouse stocks Bulkysoft, Mutexil, Semperguard, DPL and Showa brands.

Kalissya supports your day-to-day purchases with its flexible logistics solutions :

### 1 - "Classic offer" - « on-the-shelf » references \*

---

- Orders from 1 to 400 cartons  
=> **Mixed pallet possible** - Minimum per reference: 1 carton.
- Packaging : cartons and pallets.
- Delivery times from our French warehouse \*\* :  
=> **Up to 3 pallets: 48 to 72h.**  
=> From 3 to 5 pallets: 5 working days.  
=> More than 5 pallets: please contact us.

### 2 - "Grouped purchases" – « on-the-shelf » references \*

---

If you would like to **order big quantities** but a 20' container is too much for you :

- **Let's share our space in our 40' HC container.** That way **your minimum is on average 10 to 15 pallets** (instead of 30+ for a 20' container). **Let's discuss your needs and our solutions.**
- Also **benefit from a container price** without ordering a full container.
- Packaging : goods delivered on filmed pallets.
- Average delivery time: 4 months from placing the order.

• \* : for "customised products", please refer to the "customisation" page.

• \*\* : subject to availability. Delivery times shown for France only. For outside of France, please contact us.

### 3 - "Complete container offer" – « on-the-shelf » references \*

- Minimum order: 40' HC full container.
- Benefit from a container price.
- Packaging: products delivered non-palletised (unpacking is your responsibility).
- . Average delivery time: 4 months from placing the order

**ESPECIALLY FOR  
Gloves & Garments**

**Possibility to mix :**

- Nitrile, vinyl, latex gloves in the same container.
- All garments in the same container.

**=> less worries & better profitability**

\* : for "customised products", please refer to the "customisation" page.

**Delivery timing:** depending on your needs, regardless of the logistics solution you choose, you can benefit from a delivery timing schedule.

Timed deliveries give you more flexibility and serenity in the supply of your products. The Kalissya team is at your disposal to understand and satisfy your expectations.

**Consignment stock ...: let's talk about it.** The Kalissya team is also at your disposal to study your specific needs for consignment of your stock.

In addition to the current stock offer and tailor-made product possibilities, feel free to ask about any other requests: single-use bed sheets, dry or impregnated wipes, safety shoes, safety gloves, etc.

Contact us!

# Customise your garment easily

Relax : in most cases, the minimum order is 1 carton.

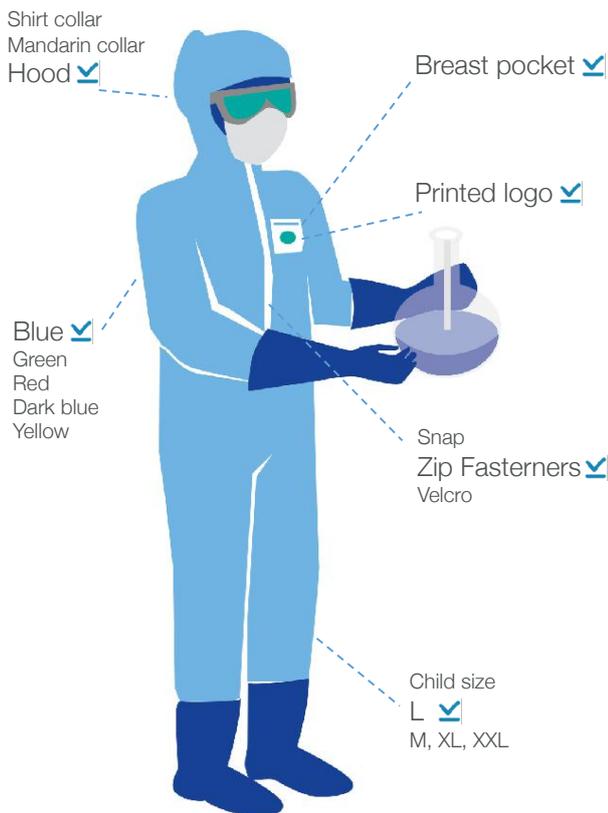

In addition, we are committed to offering very competitive prices.

Tailor-made  
Affordable

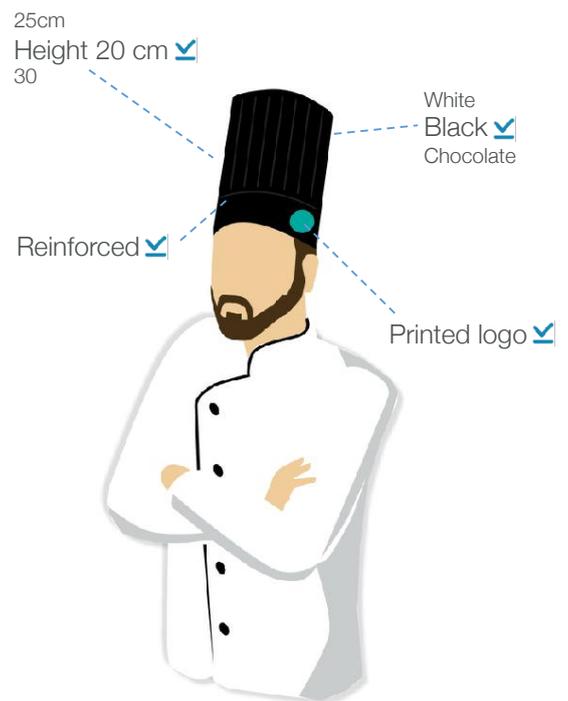

- You can define your specific design \*: height, width, number of ply, sizes, collar, hood, pockets, snap fastener, zip fastener, velcro, etc.
- You can also choose from many options: logo, colors\*\*, material, thickness.

## Examples

Coverall

Chef's hat

\*: based on the standard range or your own design.

\*\* : white, blue, green: one carton as a minimum. For any other color, the minimum order quantity depends on the quantity of products made with one reel of raw material.

## You can also customise your packaging

In addition to product customisation, you can customise the packaging :

- Number of items per bag according to your needs: 5 units, 10 units, 20 units etc.
- Your logo printed on each bag for better recognition of your brand.
- A little extra: put your logo on the shipping carton.

You can also customise glove boxes:

- Glove boxes in your own brand name.
- Minimum order: 500 cartons in total, 100 cartons per size.

# HEAD PROTECTION

### Polypropylene (PP) and polyethylene (PE) lab-coats with collar

Thanks to their PE coating, these lab-coats protect the body and clothing during dry, dirty work with low potential liquid splashes in non-hazardous environments.

- Polypropylene (PP) with polyethylene (PE) coating.
- Weight : 27g/m<sup>2</sup>.
- Thickness : 12μ.
- Sewn, with elasticated collar and cuffs.

## Polypropylene (PP) coveralls

These coveralls are made of polypropylene. Weight 40g/m<sup>2</sup>. They are sewn, with collar or hood, and elasticated cuffs and ankles.

2 pockets, zip fastener, white or blue, sizes L to XXL.

These coveralls are ideal for **protecting the entire body and clothing when working in dirty, non-hazardous environments.**

Complies with PPE Directive 89/686 EEC, for minor risks.

# MEDICAL FOCUS

In order to meet medical sector needs (hospitals, clinics, etc.) Kalissy offers a specific range on request. Some examples below (non-exhaustive list).

## SMS jacket

- Jersey collar and cuffs - snap fastener.
- Navy blue.
- XL.
- Individual bags, x50.

## Surgical shirt

- Patient shirt.
- Ties at the neck.
- Navy blue.
- XL.
- Bags, 10x10.

## Pyjamas

- Anti-static pyjamas in opaque SMS - 35g/m<sup>2</sup>.
- Trousers can be adjusted via a sliding link at the waist.
- Navy blue.
- Size S, M, L.
- Bags, 10x5.

### Medical lab-coat

- Non-woven lab-coat with lace fastenings at the rear of the neck and waist. Elasticated cuffs.
- Without pockets.
- 27 g/m2.
- White.
- XL.
- Bags, 10x5.

### Medical bib

- Paper bib with waterproof PE.
- With pocket.
- 36 x 68 cm.
- Blue.
- Carton of 500 units.

### Non-woven wash cloth

- Needle-punched wash cloth 75 g/m2.
- 24 x 15 cm.
- White.
- Bag, 50x16

### Other products available

(such as single-use bedding: sheets, fitted sheets, pillowcases, etc.).

We can also manufacture products according to your specifications.

**For more information, please contact us.**

# SINGLE-USE HYGIENE PAPERS

All Bulky Soft wiping products offered by Kalissya meet high quality standards.

All Bulky Soft brand products are manufactured in Europe and meet your needs for quality, availability and competitive prices.

Ecological and sustainable management expectations are also taken into account by means of Ecolabel and PEFC certification and labelling.

- The Bulky Soft brand is part of the Cartiere Carrara group, currently one of the leading producers and converters of paper for European wiping. The company currently owns 9 plants, all located in Europe.

- Created in 1992, the European Ecolabel is the only official European ecological label that can be used in all Member States of the European Union.
- The Community eco-label is based on the principle of a "global approach" which "takes into account the product's life cycle from the extraction of raw materials, manufacture, distribution and use, through to recycling or disposal after use".
- Quality and use are also taken into account.

PEFC certification promotes sustainable forest management and thus benefits:

- the environment: forest protection (biodiversity reserve, CO2 sensor and climate regulator, etc.);
- citizens: protection of those who live and work in forests, welcoming the public;
- the economy: rational and economically beneficial exploitation of forests.

Applied to a wooden or wood-based product, the PEFC label provides consumers with a guarantee that the product they buy comes from responsible sources and that, thanks to their purchase, they are participating in the sustainable management of forests.

# HAND TOWELS - TISSUES

## Roller towels - Pure cellulose wadding - central reeling

- Central reeling towel rolls.
